

Project

University of Pittsburgh's Petersen Events Center Pittsburgh, PA

Giffin Interior was chosen to provide all the custom casework for this multi-purpose basketball arena's food service facilities. Fabrication required the use of state-of-the-art laminate technologies and extensive solid surfacing. Giffin Interior offered a turnkey, single-source solution for the client by professionally installing all the casework. This resulted in a seamless project from start to finish.

Team

Contractor: Creative Industries, Inc. - Glen Allen, VA
 Construction Manager: Pitt Center Partners - Pittsburgh, PA

Craftsmanship

Stipple finish gives the basketballs lifelike texture.

Blends stainless steel, laminates, and graphics.

Custom images are silk-screened onto laminate.

Food Service

Customer Satisfaction

"The entire Giffin Interior team performed above and beyond my expectations. Everything that I asked to be done was handled promptly and correctly. I was particularly pleased that the scope of work was well-defined, resulting in very few extras. I'm looking forward to working with Giffin Interior on future projects."

- Phil Holsinger, Creative Industries, Inc.
